19 **PARTIES**

20 1. Louise R. Bailey, M.Ed., RN ("Complainant") brings this Accusation solely in her
21 official capacity as the Interim Executive Officer of the Board of Registered Nursing ("Board"),
22 Department of Consumer Affairs.

23 2. On or about March 10, 2000, the Board issued Registered Nurse License Number
24 564903 to Oleg Levshin ("Respondent"). Respondent's registered nurse license was in full force
25 and effect at all times relevant to the charges brought herein and will expire on December 31,
26 2009, unless renewed.

STATUTORY AND REGULATORY PROVISIONS

3. Business and Professions Code ("Code") section 2750 provides, in pertinent part, that the Board may discipline any licensee for any reason provided in Article 3 (commencing with section 2750) of the Nursing Practice Act.

4. Code section 2764 provides, in pertinent part, that the expiration of a license shall not deprive the Board of jurisdiction to proceed with a disciplinary proceeding against the licensee or to render a decision imposing discipline on the license. Under Code section 2811, subdivision (b), the Board may renew an expired license at any time within eight years after the expiration.

5. Code section 2761 states, in pertinent part:

The board may take disciplinary action against a certified or licensed nurse or deny an application for a certificate or license for any of the following:

(a) Unprofessional conduct, which includes, but is not limited to, the following:

(1) Incompetence, or gross negligence in carrying out usual certified or licensed nursing functions . . .

6. California Code of Regulations, title 16, section ("Regulation") 1442 states:

As used in Section 2761 of the code, 'gross negligence' includes an extreme departure from the standard of care which, under similar circumstances, would have ordinarily been exercised by a competent registered nurse. Such an extreme departure means the repeated failure to provide nursing care as required or failure to provide care or to exercise ordinary precaution in a single situation which the nurse knew, or should have known, could have jeopardized the client's health or life.

7. Regulation 1443 states:

As used in Section 2761 of the code, "incompetence" means the lack of possession of or the failure to exercise that degree of learning, skill, care and experience ordinarily possessed and exercised by a competent registered nurse as described in Section 1443.5.

COST RECOVERY

8. Code section 125.3 provides, in pertinent part, that the Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

FIRST CAUSE FOR DISCIPLINE

(Gross Negligence)

9. At all times herein mentioned, Respondent was employed as a registered nurse at Gambro Healthcare – University Avenue, an end stage renal disease facility located in San Diego, California (hereinafter “Gambro Healthcare” or “facility”).

10. On or about October 22, 2004, Patrick M. (hereinafter “patient”) was brought to the outpatient clinic at Gambro Healthcare for his first outpatient dialysis after being hospitalized with an acute illness. Respondent was assigned to oversee the patient’s care. The patient’s pre-dialysis blood pressure was 108/48 and his pulse was 83. At approximately 1:16 p.m., hemodialysis was initiated. At 1:17 p.m., the patient’s blood pressure dropped to 77/41. By 1:30 p.m., the patient’s blood pressure was 67/32 and at 1:44 p.m., his blood pressure was 72/35. The patient’s symptoms of severe low blood pressure continued and he lost consciousness and was foaming at the mouth. At 1:49 p.m., 36 minutes after hemodialysis began, San Diego paramedics were called. The hemodialysis staff was unable to locate an oxygen tank and when they finally did, it was empty. The hemodialysis staff stood by watching the patient and wiped the foam from his mouth, but failed to initiate any life support measures (CPR) or establish an airway. The patient was still sitting in the dialysis chair when the paramedics arrived. The paramedics and fire department personnel reported that none of the hemodialysis staff had initiated CPR or provided respiratory support for the patient even though he was unconscious, unresponsive, and in respiratory and cardiac arrest, that the staff had not brought any emergency equipment, such as a crash cart, to the patient’s chair side, and that the patient’s blood pressure was 0/0, his pupils were 4 mm dilated and fixed, and his skin was cyanotic. The paramedics immediately took the patient out of his chair and began CPR on the floor. At 2:15 p.m., the paramedics obtained a pulse of 80 and a blood pressure of 118/74 and transported the patient to Alvarado Hospital Emergency Room located in San Diego.

11. Respondent is subject to disciplinary action pursuant to Code section 2761, subdivision (a)(1), on the grounds of unprofessional conduct, in that on or about October 22,

///

1 2004, Respondent was guilty of gross negligence in his care of the patient within the meaning of
2 Regulation 1442, as follows:

- 3 a. Respondent failed to initiate CPR or make any attempts to rescue the patient.
4 b. Respondent failed to obtain or use the facility's emergency equipment while the
5 patient was experiencing a medical emergency.
6 c. Respondent failed to assess, or adequately assess, the patient while he was
7 experiencing a medical emergency, and failed to perform any interventions or provide care to
8 sustain the patient.

9 **SECOND CAUSE FOR DISCIPLINE**

10 **(Incompetence)**

11 12. Complainant incorporates by reference as though fully set forth herein the allegations
12 contained in paragraphs 9 and 10 above.

13 13. Respondent is subject to disciplinary action pursuant to Code section 2761,
14 subdivision (a)(1), on the grounds of unprofessional conduct, in that on or about October 22,
15 2004, Respondent was guilty of incompetence in his care of the patient within the meaning of
16 Regulation 1443, as follows: Respondent failed to document in the patient's dialysis treatment
17 record ("Post Treatment Report") the patient's appearance or respiratory, cardiac, or neurological
18 status. Further, Respondent made a nurse's note at approximately 3:46 p.m., after the patient was
19 transported to Alvarado Hospital, that he decreased the patient's blood flow speed to 280 cc/min
20 when the patient's blood pressure dropped to 77/41, that normal saline was being pushed
21 "constantly" when the patient's blood pressure dropped to 70/38, and that the patient was given
22 oxygen at "3L/MIN", but failed to document the alleged interventions in the patient's Post
23 Treatment Report.

24 **THIRD CAUSE FOR DISCIPLINE**

25 **(Unprofessional Conduct)**

26 14. Complainant incorporates by reference as though fully set forth herein the allegations
27 contained in paragraphs 9 and 10 above.

28 ///

15. Respondent is subject to disciplinary action pursuant to Code section 2761, subdivision (a), in that on or about October 22, 2004, Respondent committed acts constituting unprofessional conduct in his care of the patient, as set forth in paragraphs 10, 11 and 13 above.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Board of Registered Nursing issue a decision:

1. Revoking or suspending Registered Nurse License Number 564903, issued to Oleg Levshin;
2. Ordering Oleg Levshin to pay the Board of Registered Nursing the reasonable costs of the investigation and enforcement of this case, pursuant to Business and Professions Code section 125.3;
3. Taking such other and further action as deemed necessary and proper.
